

Financial Statement for International Applicants

UA ID _____

Important: After admission to a U.S. school and before the U.S. immigration document can be issued, U.S. immigration regulations require that satisfactory evidence of adequate funds to meet all expenses incurred during the student's first academic year must be provided to the U.S. school. Students are required to notify the International Programs & Initiatives Office of any funding changes. Please complete **ALL ITEMS** (pages 1 and 2) on this form in English. **Incomplete forms and/or missing documentation will cause a delay in document processing.** Graduate applicants must submit this form even if UAF funding has been requested on page 2.

Supporting documentation is needed from each person or organization who will be contributing to the cost of your education, as listed under the source of funding on page 2. The documents should reflect the person's financial status over time. Examples of supporting documentation include: bank statements covering the most recent 3-4 months or an official letter, on bank stationery and signed by a bank official, indicating the amount of funds available. All documents must be in English or officially translated into English. Monetary amounts do not need to be expressed in U.S. dollars as a currency conversion will be done when documents are processed. Currency type must be identified on the document. The completed Financial Statement and supporting documentation may be scanned and emailed. **Students should be prepared to show original documents during the visa appointment and/or when entering the United States.**
